

The University of Hong Kong
Centre of Buddhist Studies
Master of Buddhist Counselling (MBC)
Learning Outcomes and Assessment Methods

Programme Learning Outcomes (PLOs)

1. Demonstrate clear understanding of important concepts, teachings and practices of the different Buddhist traditions and an ability to integrate these knowledge in a counselling context.
 2. Critically appraise Buddhist-based interventions and apply new knowledge and skills to improve counselling practice.
 3. Consider and adhere to important Buddhist values such as compassion, wisdom, and Buddhist ethics in order to identify cause and conditions of problems in novel situations and generate innovative and effective solutions.
 4. Achieve proficiency in the communication of Buddhist teachings and practices while being sensitive to the background and needs of individual clients.
 5. Demonstrate self-awareness and reflexive learning ability in the course of spiritual practice.
-

Course Learning Outcomes and Detailed Assessment Methods

A. Core Course

BSTC7600. Theories and practice in Buddhist counselling I (9 credits)

Assessment

- Examination, 30%
- Coursework, 70%
 - Class participation (e.g., role play, discussion, contemplative practices, etc.), 10%
 - Essays (e.g., reflection paper, final paper, etc.), 20%
 - Transcription of counselling sessions, 40%

Course learning outcomes (CLOs)

Upon completion of the course, students should be able to:

1. Demonstrate a clear understanding of Buddhist model of human suffering and elimination of suffering, and be able to apply these knowledges in a counselling environment.
2. Discuss how spiritual care and Buddhist counselling can be applied in various settings.
3. Apply basic Buddhist counselling skills and establish therapeutic alliance with others.
4. Demonstrate the ability to reflect and understand the impact of the counselling process.
5. Understand the basics of ethical standards according to the Buddhist perspective and the standards listed by the Association of Professional Chaplains.

BSTC7602. Spiritual formation through contemplative practices (9 credits)

Assessment

- Examination, 20%
- Coursework, 80%
 - Class participation (e.g., role play, discussion, contemplative practices, and etc.), 10%
 - Group presentation, 30%
 - Essays (e.g., reflection paper, research paper, etc.), 40%

Course learning outcomes (CLOs)

Upon completion of the course, students should be able to:

1. Explain Buddhist approaches to spiritual formation and discuss how these may influence their own approach to spiritual direction and Buddhist counselling.
2. Demonstrate a commitment to the furtherance of spiritual growth by committing to certain spiritual practices.
3. Discuss ethical issues related to spiritual direction from a Buddhist point of view and the application to their personal life.

4. Articulate their understanding of spiritual formation/direction from a Buddhist point of view through written and oral communication.
5. Demonstrate the ability to apply spiritual care and counselling techniques in the context of life activities inspired by this course.

B. Elective Courses

BSTC7603. Dharma therapy (6 credits)

Assessment

- Coursework, 100%
 - Class participation (role play, discussion, and etc.), 15%
 - Group presentation, 30%
 - Essay, 55%

Course learning outcomes (CLOs)

At the completion of the course, students should be able to:

1. Demonstrate a clear understanding of the important concepts, theories, and principles of dharma therapy.
2. Understand the role of a therapist practicing dharma therapy and how to ethically and appropriately build relationships with clients.
3. Integrate the theory of dharma therapy into practice and develop effective corresponding counselling skills.
4. Recognize and respect the beliefs and value of clients so as to work with the clients skillfully and effectively.
5. Raise the level of self-awareness and personal development by practicing mindfulness meditation continuously.
6. Perform critical intellectual enquiry and acquire up-to-date knowledge of and research skills in Buddhist-derived individual therapies.

BSTC7607. Buddhist liturgy and rituals (6 credits)

Assessment

- Coursework, 100%
 - Short essay of 3,000–3,500 words, 70%
 - Group presentation, 30%

Course learning Outcomes (CLOs)

Upon completion of the course, students should:

1. Have a full and in-depth picture of the studies of Buddhist rituals and demonstrate that they are able to interpret and analyse the ritual theories, the various dimensions of Buddhist ritual practice, research methods, and the actual practices of different Buddhist rituals in the contemporary period.
2. Be familiar with Buddhist doctrines and rituals, with particular attention given to the development of Buddhism.
3. Be able to discover and weigh different kinds of evidence (textual, historical, and ethnographic) available for the same events or rituals.
4. Be able to approach Buddhist practice as one of subjects of academic studies.
5. Be able to perform critical thinking and rational understanding.

BSTC7608. Buddhist mediation (6 credits)

Assessment

- Coursework, 100%
 - Essay (3000 – 4000 words), 50%
 - Continuous assessment, 50%

Course learning outcomes (CLOs)

Upon completion of the course, students should:

1. Be equipped with knowledge and understanding of the Buddhist Mediation Model and the Buddhist theories of dependent-arising, cause, conditions, and effects as a transformative practice of conflict resolution.
2. Be able to apply evidence-based theory and practice for couple and family counselling and therapy to the practice of reframing with the Five Aggregates Reframing Model under the Buddhist Mediation Model that integrates the theories of emptiness and no-self.
3. Be able to apply the Buddhist Mediation Model to resolve family disputes relating to couple, parent-child, elderly/sick, probate, and other disputes.
4. Be able to apply communication skills to be one's own mediator and integrate practice of not-knowing, empathy, and active listening with mindfulness of body, mind, and heart (e.g., Tonglen Practice).
5. Have qualities and ethics of a Buddhist Mediator by practicing the Eightfold paths: Right Speech, Right Action, Right Livelihood, Right Effort, Right Mindfulness, Right Concentration, Right Thought and Understanding, and Contemplation on the Heart Sutra.
